

Before actions by the Board are requested or recommended, either by the Superintendent or a Board Member, adequate data and back-up information shall be provided to assist the Board in reaching sound and objective decisions consistent with established goals. Action items, including resolutions, can only be added to the Board agenda in compliance with Policy 1322.

Board members shall be expected to read the information provided them and to contact the Superintendent or other appropriate staff members to request additional information that may be necessary to assist them in their decision-making responsibilities.
