TEACHER FEEDBACK ON WORKLOAD

Cathy Moore, Deputy Superintendent for School Performance

BACKGROUND

During the 2013-14 school year, a number of transitions have impacted the school and classroom environment. The continued transition to the Common Core/Essential Standards, new assessment results, new programs and resources that require time and training have all contributed to concerns expressed by teachers, school administrators, and district leadership.

The Board of Education requested that central services staff reach out to principals and teachers, to provide a forum for discussion and to gather feedback and give suggestions for how the district can support teachers. Principals have provided feedback to their Area Superintendents and Assistant Superintendents in the Office of School Performance. Teachers have provided feedback through a discussion facilitated by the Area Superintendents and through the Superintendent's Teacher Advisory Council.

Staff will provide an overview of the information gathered and discuss immediate response and anticipated response to the information collected in the process.
