BACKGROUND

WCPSS collaborates with CIS Wake to identify physical, emotional and academic needs of Tier 2 students and to develop a plan to meet those needs. CIS Wake provides mentoring, coaching and support to the identified students. Additionally, CIS Wake connects students and parents with appropriate community resources that best address student needs in order to help the students fully engage in learning, stay in school, find purpose in their education and ultimately improve achievement, attendance and behavior. Staff will provide a summary of the CIS Wake graduation coach program and results.
