

Wake Forest-Rolesville High and Middle Schools Proposed Name Changes

The following facility-related items affected by the proposed name change at WFRHS have been estimated at approximately \$20K.

- Monument sign at the front entry of the school. We are suggesting a fabricated insert over the name portion of the existing monument sign, retaining the brick support structure. However, it should be noted that the existing sign was a gift from the Class of '91.
- Bleacher seats in the main gym (small modification to change the WFR to WFH).

The only facility-related item at WFRMS is the monument sign. Similar to the high school sign, an overlay would be installed to cover the entire name portion, or perhaps over the "Rolesville" half of the sign with a logo. **Cost would be approx. \$10K.**

The estimated cost to perform the above items at both schools is \$30K.

Other less critical items which may be considered at the WFRHS campus but not covered in the above estimate include:

- Signs at main stadium field (2)
- Memorial sign at main stadium and painted murals at the main stadium area
- Baseball field sign
- School seal in the front entry lobby
- Activity Bus letters / paint
- Banners throughout the school
- Walk-off mats
- School letterhead and paper materials
