Superintendent's Proposed Budget for 2012-13 Board of Education Q&A Budget Worksession April 24, 2012

(1) What dollar amount would be needed to restore teaching assistants back to 10 month, and our APs back to full-time? *Kevin Hill*

Restoring teacher assistants to a 10-month employment length would require 1,866 months of employment or \$3.8 million.

Restoring the number of months for assistant principals to the formula prior to the budget reductions would require 284 months of employment at a cost of \$2.2 million. *David Neter*

(2) How much additional funding is needed to bridge the "final" gap we anticipate between our initial request of +\$8.8m additional (over last year) and what we would need now to wash any additional discretionary cuts? *Kevin Hill*

\$2.8 million

Superintendent's Proposed Budget Expenditures	\$	323,190,913
Transportation - adjusting 2-Tier Schedule		
Bus Drivers needed for the New Routing Plan; add back 330 months driver so the		
revised reduction is 260 months driver	\$	909,700
Fuel for Buses	\$	300,008
Oil, Tires, Parts, and Supplies for Buses	\$	108,573
	\$	1,318,281
Shift School-Based Clerical Months to the Local Budget		_
Shift 460 Lead School Secretary Year Round positions from the state budget to the		
local budget due to the additional increase in the State LEA Discretionary Budget		
Reduction.	\$	1,112,734
	\$	1,112,734
Increase Teacher Assistants from 9.25 to 9.30 Employment Length		
There is one additional holiday in 2012-13 as compared to 2011-12. This		
increases the employment length for teacher assistants to 9.30 months.	\$	265,353
	\$	265,353
Year Round Middle Schools - 12 Month Position Allotment for New School		
12-month teacher position for Rolesville MS.	\$	55,919
	\$	55,919
Revised Expenditures	\$ 3	325,943,200
Variance	\$	(2,752,287)

Proposal for Closing \$2.7 m gap:

Prorata Distribution of Budget Reductions to Offset Added Costs

Schools (equates to \$13.96 of an \$85.00 supply allotment)	\$ (2,099,980)
Deputy Superintendent for School Performance	\$ (230,552)
Chief Facilities and Operations Officer	\$ (303,854)
Chief Business Officer	\$ (82,880)
Chief Transformation Officer /Chief of Staff	\$ (19,581)
Chief of Family and Public Engagement	\$ (12,996)
Board of Education	\$ (2,444)
	\$ (2,752,287)

David Neter

(3) As I review the details of our budget, where are we in regard to ESCOs? I'd brought this idea forward a few times, and would like some follow up from our staff to see how we are progressing. Debra Goldman

A request for proposals from Energy Services Companies (ESCOs) that are interested in entering a Guaranteed Energy Savings contract for improvements at 22 schools is currently on the street, with a due date of 17 May. We are following state procedures and timeline for evaluation of proposals, financial analysis, selection of firm, auditing, etc.; contract award is expected in early 2013. *Don Haydon*

(4) I would like to see a list of activity buses, routes and how they are determined. Is this done in an equitable fashion and by whom? *Debra Goldman*

The activity bus is requested by the principal. Routes are determined based on where students live. A good example is on the Holly Springs High School website where they list their activity bus runs and where they stop.

(5) In follow up to the question regarding a five year analysis of past transportation cost trends (from our March 20th meeting), I'm looking at the row that is labeled "total Operating", I see a big drop from FY 2009 to FY 2010 and would like to know why there was such a significant \$4Million drop. *Debra Goldman*

The exceptional children's contract was renegotiated for fiscal year ending 2010. The cost of these contracts dropped \$3.5 million from 2009 to 2010. The rest of the decrease in costs came primarily from better management of bus driver hours. *Don Haydon*

(6) Also worthy of note, are the large differences in the Fund 4 program regarding the NCDPI LEA Finance Purchase of School Buses. FY 2010 shows \$2,522,580 and FY2011 shows \$7,866,703. Will you please explain this to us? (page 5 of the handout from 3/20/12 work session/questions.) Debra Goldman

The financing of the replacement of yellow school buses is funded by the state. The amount financed is amortized over time. We had a large number of buses meeting the replacement criteria over the past few years. The state replaced 159 buses in 2009-10, 14 buses in 2010-11 and will replace 236 buses in 2011-12. With more buses on the amortization schedule, the costs increase. *Don Haydon*

(7) How were the schools selected for the Spanish emersion, STEM and global studies? For the elementary schools, for example, based on data we have been provided to date, Lincoln Heights and Weatherstone can reasonably be classified as severely under enrolled, but Jeffery's Grove and Forrestville Rd. show KI enrollments that are well above the severely under enrolled levels. *Jim Martin*

Schools interested in joining either the Global Schools Network or STEM Collaborative Network submit an application for consideration. The State has provided a framework of the attributes of STEM/Global Schools that are incorporated in the process. Selection is driven by the District priority of making all schools high demand schools. Members of a selection committee consider the elements in the application and alignment to the WCPSS Strategic Plan Focus Areas 1, 2, and 3 (draft).

Focus Area 1 Provide all students with extensive opportunities, high expectations, and support in achieving continuous high academic success.

Focus Area 2 Academic achievement gaps can and will be eliminated by aggressively challenging students at all achievement levels.

Focus Area 3 Recruit, train, and retain high quality employees.

The application includes district data gathered upon application submission, including demographics and current capacity/crowding. A committee of four reviews the applications – 2 from Academics, 1 from Student Support Services, 1 from Data & Accountability. Recommendations from the committee are reviewed by the Superintendent, Deputy Superintendent, and the Chief of Staff and include additional data from Choice Round 1 Assignment.

Jeffreys Grove is an existing member of the Global Network and requested the Splash Immersion Program as their design option, beginning in 2012-13. Each STEM/Global school is asked to choose a design option – area of focus – within STEM/Global. Examples for Design options are:

Global:

Global Immersion Network School – Dual, Full, or Partial Global Passport Network School

World Language Network School Global Community Network School

STEM:

Grand Challenges for Engineering Robotics Lego® Environmental Studies Arts Health and Life Sciences

Cathy Moore

(8) What are the financial/personnel/infrastructure resources that are being committed to a school when it is given a STEM or Global Studies distinction? We need to both understand the cost from a budget perspective, but we also need to ensure there are sufficient resources provided to make a real impact, i.e. beyond just a new label. *Jim Martin*

The WCPSS STEM/Global Schools Network is a group of schools dedicated to enhanced strategic planning, professional development, programming, and community advocacy.

Schools within the Global Network are committed to creating collaborative, multi-faceted approaches to global education to ensure that students are prepared to collaborate, communicate, and lead in a global society. The WCPSS Global Schools will partner with other districts that are a part of the NC Global Schools Network.

Schools within the STEM Collaborative Network are committed to creating collaborative, multi-faceted approaches to STEM education to ensure that students are prepared to compete, collaborate, and communicate in a 21st century society. The WCPSS STEM Schools will partner with the NC STEM Collaborative.

The schools that are selected to join the Global network will receive 5 MOE (recurring) of a teacher position to provide foreign language instruction, develop integrated global lessons, and provide staff development. These schools will also receive iPad carts (30 iPads) for each grade level to provide students the opportunity to apply and explore global concepts. The technology is a one-time cost paid for out of current year savings.

The schools that are selected to join the network will receive 5 MOE (recurring) of a technology facilitator to provide instruction on STEM concepts, develop integrated STEM lessons, and provide staff development. These schools will also receive iPad carts (30 iPads) for each grade level to provide students the opportunity to apply and explore STEM concepts. The technology is a one-time cost paid for out of current year savings.

The 2011-12 school year has been designated a planning year, as schools learn about options for implementation, and opportunities for professional development. Funds for professional development are targeted and available. Academics is working with Data & Accountability to support implementation by establishing goals and monitoring progress. In addition, we are working within the State STEM and Global Network initiatives to support strong programming.

(9) What will be done to address severe under enrollments? and to protect small schools from losing a critical number of teachers because of low enrollments? Principals at small schools routinely have explained to me that because of smaller student numbers, they have the unintended consequences of not having the additional MOE that can provide some flexibility to provide a more complete set of program offerings, i.e. for media support or classes beyond the minimally required course of study. Looking at only the KI assignment numbers we have after the first round I see that 56 (significantly above half) of our elementary schools have capacity for at least one more KI class, of those 36 schools have capacity for two or more KI classes, and of those 15 have room for three or more KI classes. KI classes being determined by 23 students per classroom. (Two can be subtracted from each of those numbers if we eliminate Richland Creek and Abbotts Creek.) Based on numbers we have seen ~1/3 of the KI seats will be filled with round 2 students, but that will still leave many of these schools significantly under enrolled. Of these, Lincoln Heights and Weatherstone were in the >3 KI classroom capacity with respectively 87 and 86 available KI seats. Forrestville Rd was in the >1 KI class capacity with 41 seats available, and Jeffery's Grove was in the <1 KI class capacity with 22 available seats.

Many of these under enrollments were predictable based on previous school enrollments (e.g. see the email I sent 1/4/2012 "Work Session Take Aways"). But it seems that the situation has been aggravated/magnified/? by the choice selection. Nevertheless, there is little question that it will take \$\$ to address these challenges. It will be very helpful to have a detailed understanding of both the cost and programatic strategy to address this under enrollment issue. *Jim Martin*

We had over 1000 KI students participate in Round 2, most of which are new to the district (as opposed to having participated in round 1 or the magnet rounds) who will fill many of the open seats. Also, we generally have a certain number of students arrive within the first 10 days of school and so final allotments are reconciled at schools based on the 10th day numbers. If schools gain additional students they get the allotments accordingly as has been past practice. The available seats at KI in some areas will remain open as they are today based on the population in a particular area - and these schools have been dealing with low-enrollment already.

In addition, last year we set aside 190 MOE as a small schools allotment which we maintained in the budget for this coming year. Schools who received it last year who no longer have as great a need will have that allotment reduced or eliminated which will allow allotments to other small schools which may have a greater need for next year . *Judy Peppler*

(10) Last year WCPSS added 192 people to the payroll. How many of the new hires are paid with Edujobs funding? *Debra Goldman*

```
WCPSS added the following new positions to Edujobs funding in 2011-12:

(12) Is there a plan in place for how Edujobs funding is to be replaced? Debra Goldman

Yes. See pages 154-155 of the Superintendent's Proposed Budget. 549.90 months or \$2.6 million will be added back to state funds and 5,154.05 months or \$24.9 million will be added to the local budget. *David Neter*

(13) Of the 192 new employees, how many are associated with the opening of new schools? *Debra Goldman*

During 2011-12, WCPSS opened two new schools, Walnut Creek ES and Wake NC State University STEM Early College. As of April 2012, Walnut Creek ES has 1,197.30 months of employment for staff and Wake NC State University STEM Early College has 108.50 months of employment for staff. *David Neter*

(14) How much would it save to delay the opening of one elementary school? one middle school or one high school? *Debra Goldman*

The 2012-13 budget includes funding for opening two elementary schools, one middle school, and two leadership academies. The leadership academies begin with middle school grades. There are no high schools opening in 2012-13. If WCPSS does not open Abbots Creek ES and Richland Creek ES, the system would not receive \$0.2 million in state resources, and would save \$0.5 million in local dollars.

(16) The proposed 2012-13 budget includes an additional \$7.1 million in noninstructional support reductions. How does this translate into jobs reduced or unfilled? What is the impact of these reductions? *Debra Goldman*

See the chart on page 19 of the Superintendent's Proposed Budget:

NCDPI notified districts that the LEA Discretionary Reduction would increase for 2012-13 based on last year's biennial budget. At the time the superintendent prepared his budget, the increase in discretionary reduction for WCPSS was \$7.3 million. We have applied the \$7.2 million towards noninstructional support and \$0.1 million towards Classroom Materials, Instructional Supplies, and Equipment. See pages 116-117 of the Superintendent's Proposed Budget.

Although we are decreasing state dollars applied towards these two categories, we are not reducing jobs or formulas supported by these programs.

See the Noninstructional Support state revenue category at the top of page 54 of the Superintendent's Proposed Budget:

WCPSS expects \$1.1 million new dollars for noninstructional support due to growth in ADM for 2012-13. This increase offsets the additional decrease from the discretionary reduction of \$7.2 million. The net decrease of state funds for noninstructional support becomes \$6.1 million.

See pages 116-118 of the Superintendent's Proposed Budget:

Noninstructional support dollars pay for clerical and custodial positions in the schools. In 2011-12, WCPSS removed 1 clerical position and 1 custodial position/contract support from each school. We do not recommend further adjustments in 2012-13. Instead, we are recommending to shift over \$6.0 million dollars of school-based clerical positions from the state budget to local funding.

See pages 20-22 of the Superintendent's Proposed Budget:

This shift from state to local funding is one of the fluctuations in expenditure in the local budget for 2012-13. These additional local costs will be supported by other savings in the local budget, requests for increased revenue for 2012-13, and increases in fund balance supporting the 2012-13 budget.

David Neter

(17) Please provide breakdown of 10 largest contracts under the proposed \$32 million budget for Contracted Services (Page 73)? *Debra Goldman*

(19) Explain the rationale for Teacher on Loan Program (NCAE) and Teacher Liaison program with Peace College? Is the NCAE program for more than one teacher? What justifies the increase in funding? Have costs been consistently reimbursed? How do we know? *Debra Goldman*

NCAE reimburses WCPSS for the salary and benefits of two Teacher on Loan position. One is twelve months of employment for the president and the other is ten months of employment vice president. The State salary manual supports this arrangement. This allows the employees to come out of day to day activities as teacher and focus on their leadership role with the teacher organization.

Ms. Bouncer currently is on paid professional leave from the Wake County Public School System in order to serve in a time limited role as president of the Wake County North Carolina Association of Educators. Her status is in accordance with North Carolina State Board of Education Policy 16 NCAC 6C. 0404, and within the following guidelines provided in the Public Schools of North Carolina *Benefits and Employment Policy Manual* under Officers of Professional Organizations:

Upon the recommendation of the local superintendent, local boards of education may grant leave with pay for elected officers of professional organizations, provided the organization pays the full salary and all benefit costs for the employee on leave. During such leave with pay, the employee will earn sick, personal, and annual vacation leave and receive paid holidays. Employees will be eligible to use leave as they would when in active status with the school system.

WCPSS established a partnership with Peace College to provide dual licensure for teachers in special education and elementary education. Peace College pays the salary for a Teacher Liaison position for twelve months and WCPSS pays the employee benefits for the position.

The increase in the business case on page 240 of the Superintendent's Proposed Budget is due to increases in employer matching benefit rates in 2012-13.

Compensation Services invoices NCAE on a quarterly basis and copies the invoices to the Accounting Department for input in our accounts receivable system. The NCAE pays the invoice in total or WCPSS will contact their office for outstanding amounts. WCPSS collects the total amount due.

The 2010-11 billing was paid with no outstanding amounts. Annual billing for the Peace Teacher Liason will be invoiced by May 1st with anticipated receipt of payment prior to the end of the fiscal year. *David Neter*

(20) The Over/Under Savings Balance is listed as \$18.9 million; does that figure include \$7 million in savings from changes in state worker compensation laws? Also WCPSS will pay out \$3.6 million in bonuses this year to personnel is that included in the figure? *Debra Goldman*

Yes, the \$18.9 million in over/under savings includes the \$7 million in savings included in the 2011-12 budget for potential changes in workers' compensation funding by the state. The change did not occur, so we protected the dollars in the over/under savings account during 2011-12.

Funds for a one-time \$500 bonus for all employees excluding certified instructional positions and the Superintendent's Leadership Team this spring would come from the \$18.9 million over/under balance. The transfer to move the dollars from savings to bonus payment and matching benefit costs has not occurred yet. After the transfer, the amount in this account would decrease to \$15.3 million in the fourth quarter of 2011-12. *David Neter*
