BACKGROUND

The State of North Carolina is migrating to a new student information system, PowerSchool, developed by Pearson. WCPSS has been working with NC DPI and Pearson during the past year on all aspects of this migration including data mapping, application customizations, interface development, and staff training. WCPSS has a targeted live date of July 8, 2013. Staff will provide a high-level overview of the transition including benefits of the new PowerSchool system.
