

Questions for IFB #251-26-217 – Printing: Letterland K-2 Student Materials

Reference	Vendor Question	Answers
	Is it okay to substitute a 28# bond weight paper for any items that specify 20#?	There would not be a reason for us to have the copies printed on #28 bond paper vs. #20 for these specific copies. We would need the copies to be printed using standard #20 bond copy paper.
	For Item Grade K Letterland Lesson 109-47 & Sentence Practice pages, how would the district like each set of pages separated within the shipping cartons?	A blank colored piece of paper would be acceptable to distinguish between each set.
	What is the current pricing from the incumbent vendor for each item?	The items on Order #2 have never been bid before. Prior to this fiscal year, our Print Shop handled the printing and distribution of these orders. The items on Order #3 were previously bid in May 2025, at a total awarded cost of \$84,398.00.
