

Questions for RFP # 26-252 (School Bus Stop Arm Cameras)

Reference	Vendor Question	Answers
<p>Stop Arm Camera Specifications – Page 2 Additional Information – Page 5</p>	<p>Page 2 of the IFB specifies that the system includes four (4) interior cameras in addition to exterior cameras. However, Page 5 states that this bid is for the purchase and installation of external stop arm cameras only. Can WCPSS please clarify whether interior cameras are required to be included in the vendor’s proposal, or if the scope is limited strictly to exterior stop arm cameras?</p>	<p>The bid is for purchase and installation of interior and exterior cameras and all hardware needed.</p>
<p>Additional Information – Pages 4 and 5</p>	<p>The IFB indicates that this is a new installation with no existing stop arm cameras, while also stating that the awarded vendor must integrate with the district’s existing Seon camera systems. Can WCPSS please clarify if the buses for this solicitation currently have equipment, and if integration with Seon is required?</p>	<p>Installation will be on new buses with NO cameras currently installed, this will be a new installation.</p>
<p>Additional Information – Page 5</p>	<p>Page 5 states that cellular connectivity is not being considered at this time and that the district uses lot-based Wi-Fi for video download. Can WCPSS please confirm that cellular connectivity is not required as part of this solicitation and that all video transfer is expected to occur exclusively via the district’s existing lot-based Wi-Fi infrastructure?</p>	<p>Cellular connectivity is not required; we will use our lot-based WI-FI.</p>
