

ABC OUTCOMES FOR WCPSS FOR 2004-05

Chuck Dulaney
Evaluation and Research Department

Results from the 2004-05 North Carolina ABCs Accountability Program for the Wake County Public School System (WCPSS) showed that:

- 54 schools were designated as “Honor School of Excellence”,
- 7 schools were designated as “School of Excellence”,
- 43 schools were designated as “School of Distinction”,
- 6 schools were designated as “School of Progress”,
- 57 schools exceeded “High Growth” targets, and
- 55 schools exceeded “Expected Growth” targets.

No WCPSS schools were identified as Low Performing by the North Carolina Department of Public Instruction (NCDPI).

Performance Recognition

.In order to be a School of Excellence, students must achieve a Level III or IV score on at least 90% of all North Carolina tests taken at that school during the year, and the average gains from pretests to posttests must meet or exceed Expected Growth standards established by the state. In addition to these standards, an Honor School of Excellence must also meet the requirements of Adequate Yearly Progress, as measured by the federal No Child Left Behind program. WCPSS had 61 schools designated School of Excellence or Honor School of Excellence for the 2004-05 school year, down slightly from 64 in 2003-04.

The School of Distinction designation requires that at least 80% of test scores reach Level III or IV and the school must meet or exceed the Expected Growth standards. WCPSS had 43 schools designated as Schools of Distinction for the 2004-05 school year, up from 35 in 2003-04. (Data released by NCDPI on August 4, 2005 fail to identify two WCPSS schools that met the standard as Schools of Distinction. Reedy Creek Middle and West Millbrook Middle will receive the correct recognition at a future meeting of the State Board of Education.)

Growth Recognition

The percentage of WCPSS schools meeting either High Growth or Expected Growth standards rose from 84% in 2003-04 to 86% in 2004-05. High Schools had the strongest growth scores, as calculated by NCDPI formulas, with 10 schools achieving High Growth, 7 schools achieving Expected Growth, and no school achieving less than Expected Growth. Elementary Schools had 31 schools achieving High Growth, 40 achieving Expected Growth, and 13 achieving less than Expected Growth. Middle Schools had 15 schools achieving High Growth, 7 achieving Expected Growth, and 6 achieving less than Expected Growth.

Distribution of Growth and Performance recognition by school level for the past several years is shown in Tables 1 and 2. A listing of school outcomes is shown in Table 3.
